

WATER SOFTENERS

Soft Water for Your Household

A. O. Smith PRO water softeners are built to last, easy to operate, and provide the quality water you need for everyday life. These softeners provide optimized water to help protect plumbing and appliances, improve skin and hair health, reduce hard water spots and stains, and increase the cleaning efficiency of soaps and detergents.

System Features & Benefits:

- **Metered control** self-adjusts regeneration cycles based on household's trend of water consumption
- **Softening resin** reduces hardness, prolonging life of plumbing system and reducing energy consumption
- **Advanced electronic controller** allows for system customization based on application as well as detailed water usage history
- **WQA Gold Seal® Certified** for verified performance and efficiency
- **Service alarms** based on time and/or gallons to optimize maintenance schedules

WATER SOFTENERS

Soft Water for Your Household

Engineered for efficiency and long-term performance, this system combines advanced control, proven media, and optimized flow technology to deliver reliable soft water throughout the home.

Cabinet Design Option

The high profile cabinet offers excellent space savings while still allowing up to 150 lbs salt storage. Its top sliding cover opens to a large tapered chute for ease of adding salt to the system without removing the cover.

Vortech plate not available with cabinet.

The Vortech® Plate

Vortech Technology creates fluidity of the media bed and extends contaminant reduction capacity — meaning fewer regenerations and a significant reduction in water usage.

The Media

Resin

- Hardness reduction
- Stops energy drain in water heaters
- Softens household water using minimal salt and water

Water Softeners				
	APR-1044	APR-1054	APR-1252	APR-1354
Hardness	75 gpg	100 gpg	100 gpg	100 gpg
Iron (red stains)	1 ppm			
Manganese	.5 ppm*			
Applications	Softens Water <ul style="list-style-type: none"> • Reduces hardness • Capable of reducing low levels of dissolved (ferrous) iron & manganese • WQA Gold Seal Certified for efficiency * Manganese reduction is highly dependent on water conditions
