

CUSTOMIZABLE FILTERS

Flexible Treatment. Simple Performance.

The A. O. Smith APIO systems provide a simple, versatile platform for a wide range of water treatment applications. Available preloaded with coconut shell activated carbon or as an empty vessel for custom media loading, APIO systems give professionals the flexibility to address unique water conditions while maintaining straightforward installation and dependable operation.

System Features & Benefits

- **Multiple configuration options** available in 10" × 44" and 10" × 54" tank sizes
- **Coconut carbon media option** provides a complete filtration solution for reducing chlorine taste and odor concerns
- **Empty tank configurations** allow customization with media selected for specific water conditions and treatment objectives
- **Simple installation** with integrated in/out head for fast setup and reliable operation
- **No power required** for efficient operation without electrical connections
- **Low maintenance design** minimizes ongoing service requirements
- **Flexible application capability** supports a variety of residential water treatment needs

CUSTOMIZABLE FILTERS

Flexible Treatment. Simple Performance.

Key Features

• Coconut Carbon Media

Available in black tank configurations, coconut shell activated carbon helps reduce chlorine taste and odor commonly found in municipal water supplies while improving overall water quality.

• Vortech® Technology (Black Tank Models Only)

The integrated Vortech® plate promotes improved water distribution through the media bed, helping maximize media utilization and support efficient filtration performance.

• Custom Media Capability

Empty vessel options provide flexibility for professionals to select and install media tailored to specific water conditions and treatment goals.

• In/Out Head Assembly

Factory-equipped with an in/out head for straightforward installation and reliable water flow management.

• Non-Electric Operation

Operates without power, reducing installation complexity and eliminating electrical requirements.

Available Configurations
